

Michael Mac Lean

1006-675 Richmond St., London, Ontario | 548-888-5264 | michaelgmaclean@gmail.com

Objective

- Computer Programmer Analyst student at Fanshawe College looking to utilize my strong knowledge of programming, ability to communicate and collaborative team approach to contribute effectively in the Information Technology field.

Skills & Abilities

- Experience in multiple programming languages; C, C++, C#, Java, Javascript/jQuery, SQL, HTML, CSS
- Adaptable to any work environment; adjusts rapidly to feedback
- Can work in a team or as an individual as I am very open-minded and self-motivated
- Excellent command of the English language; both written and verbal
- Develops professional relationships with peers, colleagues, and clients

Experience

FULL STACK DEVELOPER | CLARENDON TECHNOLOGIES INC | MAY 2021 – PRESENT

- Worked as the sole developer on a business process application using .NET and SQL for a multi-billion-dollar company, where all deadlines were met in a timely fashion.
- Contributed quickly and effectively on various other projects and tasks of which my team oversaw.
- Developed applications using an array of programming languages/frameworks including Kotlin, React, C#, .NET, MVC, JavaScript, TypeScript, and SQL.

SOFTWARE DEVELOPER CO-OP | FANSHAWE COLLEGE | JANUARY 2020 – MAY 2020

- Maintained and developed administrative applications used by employees and students.
- Worked closely in a small team to develop a new College bursary application using the ASP.NET framework.
- Implemented client feedback into the development of the application.

IT CONSULTANT/WEB DEV | GML CONTRACTORS LTD. | JULY 2018 – DECEMBER 2018

- Created an off-site backup of all company data, both the physical and software components were designed and implemented by myself.
- Responsible for any day to day troubleshooting and problem-solving within the IT section.
- Developed and maintained the company website.

Education
